APRIL 2015

Dear Sportsman,

Over the years we have had the honor to host many family hunts. Many of those customers have made it a family tradition to come back every year. It is with great pleasure to share their testimonial with you. We hope you enjoy them as much as we have!

If you've hunted with us, we would love a testimonial from you! Please e-mail them to mike@deadmanspassranch.com.

Sincerely,
Michael W. McGee, Sr.

CORBIN'S HUNT WITH HIS DAD AND GRANDFATHER

What an experience going on his first deer hunt and knowing that he is getting to go with his dad, Mike and his grandfather, Jerry. Jerry has harvested many a wild game, even an elk that is a world record. Corbin was ready to take his place in the line of family hunters. He was 10 years old, going to the Dead Man's Pass Ranch and getting to go whitetail hunting was exciting.

Dead Man's Pass Ranch was more than just a hunting camp; it was a place for our family to enjoy all aspects of hunting, great accommodations, big meals together, camp fires, feeding the deer, watching the wild life unfold and watching the glorious sunrise and sunset. When we arrived on our first day, we were met by the head guide. He talked to us about the safety and what we could look forward to.

The morning of our hunt came bright and early! Dressed and ready, our guide took us to the stand, where Corbin, his dad and his grandfather were set up. They talked about all the things they hoped to do that day. The morning sun arose and the beautiful day broke. The stand was in a great location, where the ravines met and you could see the paths made by the deer that had come before.

The guys talked quietly and waited for the first deer to come their way, which didn't take long. Several deer had passed the stand, but the guide wanted to find just the right deer for Corbin to harvest. As the day wore on, he came into sight. He was a 10 point, fine bodied deer for a 10 year old kid and Corbin wasn't going to pass this opportunity up. You could feel the excitement; they knew it was the one for Corbin to harvest. We don't really know who had the worst case of deer fever in the stand. They waited for the 10 point to come into range; Corbin steadied himself and took a breath, released the safety and pulled the trigger. As everyone in the stand was watching through their binoculars, the deer darted and then ran for just a bit and dropped in its tracks. Corbin had made an excellent shot! Of course they waited the proper amount of time before tracking the deer, knowing what had just taken place.

Walking just a bit to teach Corbin the safety and proper way to approach the harvested deer, the guys found the deer just a short distance from where Corbin had taken the shot. Corbin's first deer, a 10 point! So very proud!

Our guide gave Corbin the chance to have all aspects and responsibilities of the hunt. Corbin helped in loading the deer and taking it back to camp where upon arrival, Corbin was taught by all the staff how to take care of your animal and how to dress the deer properly. Dead Man's Pass Ranch was the perfect place to be for a very successful hunt. After the hunt we celebrated with lunch and great conversation of the day that just unfolded.

Afterwards when things were settled just a bit, we were treated to a tour around the ranch; we were in awe as we were getting to see the beautiful land that God had created and all that Dead Man's Pass Ranch has to offer.

We still had time for Corbin to hunt for a doe the next day. Again it was another successful hunt!

When we left the ranch, our coolers were filled, but most of all our hearts and memories were full.
